February 26, 1967

Dear Bill:

Please take my cryptic word for it: It is important that, if you and/or others possibly can, you send me every public statement by Liebeler by air daily, especially as it relates to the current New Orleans situation, and going back, if you still have the papers, to the beginning of it.

Of course, my general interests persist and many things appear in your papers out there that do not appear here, but this one thing is urgent. None of his statements quoted on radio and TV have appeared in the papers available to me.

I am writing something that I think is quite important and I want to finish it as soon as possible, certainly this week.

What comes later will be important, but my need is pressing and now.

Regards to all.

Sincerely,

Harold
